

TO TAKE ALL IN CLASS ONE FIRST

Draft Quotas To Be Figured On Number of Eligibles In First List

Washington, April 20.—Congress has just changed the army draft regulations so that men needed in agriculture or industry won't be drafted from one district while workers in nonessentials are draft-free in another.

It took nearly three months to pass the "classification bill," but the job is finally done.

The bill changes apportionment of draft quotas drastically, as follows:

Quotas will be figured on a basis of the number of eligible men in Class I, not on a percentage of the total registration.

How Plan Will Work.

If Louisville has fewer physically competent men in Class I than has another city of the same size, fewer men will be called from Louisville than from that other city. Or it will work the other way around.

Uncle Sam will base his call to Louisville on the number of physically fit men in class I, rather than on the total number of males within draft age.

Another important bill affecting the draft is still tied up in the House. This is the bill to make men who have become 21 since last June liable to draft. This bill, the War Department figures, would let into the draft more than 700,000 new Class 1 men. It would set far in the future the day when men with dependents will have to be called to the colors.

Both House and Senate have taken their time in respect to these bills. Both were strongly urged in Gen. Crowder's report the first week in December, when Congress reconvened for the present session.

The "classification bill" was introduced in the Senate January 15, and passed March 1.

A duplicate of the Senate bill as passed was substituted for a House bill on the same subject that had been previously introduced, but it was April 13 before the Senate bill was passed by the House. The total time taken to make the bill a law was, therefore, nearly three months.

Recent draft calls have been sent out under the old law, because we had to have new men to keep our cantonments training facilities at work. The war could not wait on Congress.

There was strong opposition to the classification bill, largely dictated by politics. Congressmen and senators from districts where there is a preponderance of Class 1 men were afraid to touch a thing that affected their constituents so vitally.

Support of the new law has come in great measure from country districts, where there are fewer unmarried men of draft age, in proportion to population, than in big cities.

Congressional action on the bill to make men who have reached 21 since registration day subject to draft, has been even slower than that on the classification bill.

Introduced in both House and Senate January 15, it has not yet been reported out by the House Military Committee.

The Senate passed it March 29, but House military committee men say they have no idea when it will be reported out.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address P. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists.

PICKS HIS OFFICE IN FORTY MINUTES

Philadelphia, Pa., April 20.—Charles M. Schwab, the new director general of the Emergency Fleet Corporation, was in Philadelphia eighty minutes to-day, but it took him less than half that time to select a building for the offices of the corporation.

The steel man called upon Mayor Smith and told him what he wanted. With Joseph E. Widener and the mayor, Mr. Schwab walked up Broad street, a square from City Hall, where the director general showed a 10-story building just finished.

J. E. Gomery, one of the owners of the structure, had just told a friend that seven floors of the building were fully equipped and occupied with paint shops, store rooms, etc.

Ten minutes later Mr. Schwab told

Mr. Gomery "the fleet corporation will take your upper nine floors."

"Hard luck," said a friend of the owner.

"Not on your life," replied Mr. Gomery. "That's the way to do things."

"Through the prompt co-operation of Mr. Widener and Mayor Smith," Mr. Schwab said, "this building was suggested, and they brought me here at once to see it. I can only say that if their promptness is an indication of the co-operation I may expect in Philadelphia, I am well pleased."

"Move in at once," was Mr. Schwab's instructions to his assistants before leaving town.

Nature Cures, The Doctor Takes the Fee.

There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of colds. Chamberlain's Cough Remedy relieves the lungs, liquefies the tough mucus and aids in its expectoration, allays the cough and aids Nature in restoring the system to a healthy condition. m

LOWER HOUSE REJECTS \$2.50 WHEAT PRICE

Washington, April 19.—As a result of the House action last night in rejecting the Senate amendment to the Agricultural bill, increasing the Government guaranteed wheat price to \$2.50 a bushel, the measure went back to conference to-day with indications that the Senate may recede so as not to delay the appropriation bill. The House defeated the amendment by a vote of 168 to 98.

A price of \$2.52 a bushel was fixed by President Wilson for the 1918 crop in a proclamation issued last February, but belief in the Senate that this price was too low was responsible for a rider to the Agricultural bill providing a new guarantee price of \$2.50.

URGE SENATE TO ADOPT SUFFRAGE AMENDMENT.

Indianapolis, Ind., April 19.—A resolution urging the United States Senate to adopt the woman suffrage amendment to the Federal Constitution was adopted here to-day by the Executive Council of the National American Woman Suffrage Association. The council, which began its session yesterday and will close late to-day, is considering plans to enlist all organizations possible, both of men and women, in the campaign to write full suffrage in the National Constitution, and will carry the campaign into the States to obtain ratification of the amendment when it has been approved by the United States Senate.

IS SHE PATRIOTIC WELL, JUST LISTEN

New York, April 20.—It is sometimes difficult for perfectly loyal patriots with Hun affiliations to prove their patriotism. A Long Island woman was hailed into court the other day, charged with pro-Germanism. She successfully proved the following items: She was Red Cross nurse in Belgium; was on the Lusitania when sunk; has four brothers in United States navy; two uncles with Pershing; two sons in the national army, and left husband because he was pro-German. She was acquitted maxime cum laude.

OBJECTOR THREATENED WITH LONG PRISON TERM

Charles Francis Phillips, "conscientious objector" of New York, will face the prospect of a thirty-year term in a military prison if he continues to refuse to obey orders upon his return to Camp Upton, according to the announcement of government officials. Phillips, who was recently drafted, not only posed as an objector, but carried this to the point of physical resistance after he reached camp refusing to obey the orders of his superiors. He was finally expelled from the cantonment, the explanation being that his kind was not wanted in the army. Government officials announced that he will be taken back to Camp Upton and forced to don an army uniform. Once enrolled as a soldier he will be tried by court-martial for any show of obstinacy.

SIGNS BILL PLACING WOMEN UNDER SPY ACT.

Washington, April 19.—President Wilson to-day signed the bill extending provisions of the espionage act to women, requiring registration of women enemy aliens.

Children Cry FOR FLETCHER'S CASTORIA

NIGHT RIDERS CALL ON KANSAS GERMANS.

Hutchinson, Kan., April 19.—Handbills printed in black ink and signed "night riders" made their appearance to-day in the eastern part of Barton county, where there is a large population of German origin.

The posters, which were nailed to barns and fences, warned "German spies, German sympathizers and slackers" that a visit from the "riders" might be expected.

"We are among you and know all of those who are traitors to their country," say the posters, "and you may expect a visit from us. There is no neutral ground. You are either for or against the Government. Line up and get right while you have a chance."

The night riders, it is said, announced their presence at each farm house by firing a pistol.

CHURCH LEADERS ARE DUCKED IN BAPTISTERY.

Berkeley, Cal., April 19.—Approximately 300 boys, ranging in age from 10 to 20 years, threw Pastor Joseph Sykes and two of his elders into a baptismal tank, chased several other elders through the residence district and wrecked the canvas tabernacle of the Church of the Living God, a religious denomination, here last night because of their alleged refusal to sing "The Star Spangled Banner."

When police reserves arrived they found the interior of the tabernacle in disorder and the pastor and elders grouped around a stove. The boys had vanished.

Rheumatic Pains Relieved.

"I have used Chamberlain's Liniment for pains in the chest and lameness of the shoulders due to rheumatism, and am pleased to say that it has never failed to give me prompt relief," writes Mrs. S. N. Finch, Batavia, N. Y.

SAYS GERMANY WILL SEND ZEPPELINS HERE

Washington, April 19.—Demonstrations of a sixteen-foot model dirigible of the Zeppelin type swung in wires—a machine said to be much superior to the German craft in that it is more mobile and can alight on water—were given to-day to the Senate Military Committee by Alfred Herbert, a Montclair, N. J., inventor. He said his dirigible could be built 600 feet in length, carry fifty persons, machine guns and bombs, and attain a speed of seventy-five miles an hour.

Development of the dirigible by the Government was urged by the inventor, who said Germany in time would send Zeppelins to America.

MARINES TO BE INCREASED TO 75,500 BY NEW BILL.

Washington, April 19.—Increase of the Marine Corps to 75,500 men and direction that a Major General of marines accompany the marines to the front in Europe were agreed to by the House Naval Affairs Committee to-day as an amendment to the Naval Appropriation bill. This action was largely a result of a fight made by Representative Britten, of Illinois.

IRISH DETERMINE TO RESIST CONSCRIPTION.

London, April 19.—The conference of Irish Nationalists, Sinn Feiners, O'Brienites and Laborites, held in Dublin under the chairmanship of the

E. & S. FREY,
BALTIMORE, MD.

Lord Mayor yesterday, unanimously passed a resolution declaring their determination to resist conscription. The resolution was similar to the one adopted by the Irish bishops at Maynooth earlier in the day. The conference then adjourned until Friday.

In their resolutions the bishop declared that "conscription was being forced on Ireland and that it was an oppressive and inhuman law, which the Irish people have the right to resist even by all means consonant with the law of God." The Irish clergy was directed to announce days for receiving contributions of money and parish meetings will be held next Sunday to gain adherents to the resolution.

The authorities in Ireland are taking steps to deal with the situation, which, to say the least, is threatening.
